

The management of commercial chains requires good management, as well as successful technological solutions and integrations.

Thanks to ORAK Oil we do feel more secure about the activity at our sites, which requires coordination of financial flows and specific policies to our clients.

**Blagoy Gramenov**  
Manager of a gas station chain

**ORAK OIL R5**

Integrated management system for petrol stations, gas stations, petrol bases, sites for wholesale and retail of liquid fuels. The system is designed for the management of chains of sites with open infrastructure, as well as for the management of their accompanying activities - shops, cafés, car washes, etc.

R5 provides a multifunctional work environment and concentrates the information flows of heterogeneous business activities by achieving a very high level of efficiency and utility.

The platform offers solutions for wide spectrum of industries - restaurants, public houses, shops, wholesale and retail storehouses, home delivery, supermarkets, fitness centers, petrol stations, currency exchange, hairdresser's, hotel complexes, property management, SPA centers, meat and milk processing and production enterprises.

## MAIN ADVANTAGES

*Supports a great number of protocols for communication with a wide range of electronic heads of pumps and level-measuring systems*

*Control of the availabilities via a level-measuring system and reporting the difference in the fuel thickness and quantity upon delivery and inspection*

*Integration with fiscal devices and issuance of invoices*

*Automatic fiscalization of the quantities registered and the type of the fuel loaded from the fuel column upon sale*
